Programme overview / 課程概覽

The Diploma combines lectures, seminars, practical exercises, prescribed reading, continuous assessment and supervised clinical casework over 2.5 years. It addresses the gap described in the brochure between undergraduate exposure and the practical knowledge required for orthodontic care in general practice. Quantified local needs analysis and stakeholder consultation records are not yet supplied.

本課程為期兩年半，結合講課、研討、實習、指定閱讀、持續評核及受督導臨床病例。課程回應簡章指出的需求：本科接觸程度與普通科矯齒診療所需實務知識之間的差距。尚欠本地需求數據及持份者諮詢紀錄。

Design approval and progression / 設計審批及進階

The programme is described as managed by HKIO with the SJTU department. The supplied faculty panel and lecture archive show teaching resources, but do not establish current appointments, institutional approvals or stakeholder participation. Proposed progression decisions should be made by an appointed assessment board after six-monthly review, with recorded evidence, remediation and final award sign-off. Board terms and fitness-to-practise procedures require approval.

資料指出課程由 HKIO 與上海交大相關部門合作管理。專家名單及錄影目錄顯示教學資源，但不能代替現任委任、機構批文或持份者參與證明。建議由獲委任評核委員會在每六個月檢討後作進階決定，記錄證據、補救及最終授證審批；委員會章程及適任執業程序待批。

Evidence conventions / 證據標示

Documented = stated in a supplied programme source, not independently audited. Proposed = drafted for joint-force decision. Missing = evidence not supplied. Conflict = sources disagree. No item is treated as approved solely because a reference programme satisfied it. English is the submission working text; Traditional Chinese supports team review and requires bilingual sign-off before use as an authoritative translation.
